

# RR TURBINE VALVE ACTUATOR REFURBISHMENT

By MD&A Bearings, Seals & Hydraulics Division

MD&A Bearings, Seals & Hydraulics Division provides complete refurbishment of RR hydraulic actuators. An inventory of disc springs, seals and retainers is maintained to satisfy short-cycle turnaround requirements. Documented functional testing of your actuator assures a seamless transition to system operations.

MD&A has been troubleshooting and overhauling utility EHC and MHC components for more than 15 years. Our ability to deliver high-quality, refurbished components on time, as promised, has made MD&A an industry leader.
